Dear Sir,

**Preliminary Amendment**

Please cancel claims 1-16 and add claims 17-33 for examination as follows:

- Subj*
17. A computing system comprising:  
    a client; and  
    a server having server control routines and connected to the client by a data  
link;  
    wherein the server control routines, upon a request to download by a client,  
determine one or both of hardware or software characteristics of the client, transpose  
data, without further negotiation with the client, and transmit the transposed data to the  
client in a form specifically adapted to the characteristics of the client, and wherein, in  
the transposing, a first set of files is transposed into a second set of files fewer in  
number than the first set of files.
18. A computing system as in claim 17 wherein the second set of files comprises a  
single file.
